

# PET Containers

The Next Step in Packaging Your Products

---

Packaging Logistics offers a large variety of PET (polyethylene terephthalate) containers. While suitable for many products, PET's are ideal for personal care products such as shampoos, lotions, hair sprays, and gels. Clear PET bottles allow the color of your product to show through for instant recognition. They are economical and easy to label and decorate. PET's protect your product like glass but without the breakage problem. They are available in a wide range of sizes. We also offer a wide range of dispensing/closures to give your packaged product line an appealing and professional look.
